

Cookie Policy

Last updated: February 16, 2023

This Website (www.aphea.bio) uses cookies to improve and personalise the user experience and ensure that it is functioning effectively.

This policy explains what cookies are and which cookies are used for which purpose.

What are cookies?

A cookie is a small text file that is installed in the browser of your computer or mobile device by a website's server when you consult a website. Cookies can be installed by the Aphea.Bio server or by one of our partners. Our server can only read cookies it has installed itself, and has no access to other information found in your computer or mobile device. We use cookies to make the interaction between a visitor and our Website faster and easier, help the visitor navigate between the different parts of our Website and to make a user's experience more efficient. We also use cookies to personalise content and ads, to provide social media features and to analyse our traffic.

DIFFERENT KINDS OF COOKIES ARE USED ON THE APHEA.BIO WEBSITE.

Necessary cookies:

These cookies or other identifiers are used for activities that are strictly necessary to operate or deliver the service you requested from us and, therefore, do not require you to consent (e.g. cookie preferences are stored to retain your choices, so that the cookie popup is not triggered on future visits).

Functional cookies:

The Website uses functional cookies. Those cookies make it easier for our Website to work, make them more pleasant for visitors, and ensure that you have a more personalized browsing experience (e.g. remembering your language choice). These cookies also enable us to personalise our content for you and remember your preferences. Aphea.Bio ensures that these cookies will not be used for a longer period than necessary for achieving this purpose. It is possible for you to delete these cookies at any time.

Performance cookies:

We use performance cookies to obtain information about visitors' use of our Website, in order to improve the content of our Website, adapt them to the wishes of visitors, and make them more user-friendly. For instance, there is a cookie that counts the number of unique visitors, and a cookie that keeps track of the most popular pages. For analyses of the use made of our Website we also rely on Google Analytics, which use cookies for this as well.

Advertisement cookies:

These cookies record your visit to our Website, the pages you have visited and the links you have followed. We will use this information to make our Website more relevant to your interests.

How to control cookies?

By using this Website you expressly agree that we can place cookies on your computer or device as explained above. However, you can control, delete and manage this Website's cookies by configuring them with our cookie consent manager cookiebot or in various other ways (e.g. <https://www.allaboutcookies.org>). Please bear in mind that removing or blocking cookies can impact on your user experience and parts of this Website may no longer be fully accessible.

Browser controls

Most browsers will allow you to see what cookies you have and delete them on an individual basis or block cookies from particular or all websites. Be aware that any preference you have set will be lost if you delete all cookies, including your preference to opt-out from cookies as this itself requires an opt-out cookie to have been set. More information may also be available in the "help" section of your browser.

Managing Analytics cookies

You can opt-out of having your browsing activity within websites recorded by analytics cookies. We use the following service providers and you can learn more about their privacy policies and how to opt-out of their cookies by clicking on link below or use our cookie consent manager Cookiebot.

External web services

We sometimes use external web services on this Website to display content within the web pages of this Website, for example to display images, show videos or run polls. As with the social buttons, we cannot prevent these sites, or external domains, from collecting information on your use of this embedded content.

Modifications to the Cookie Policy

We may modify or amend this Cookie Policy from time to time at our discretion. When we make changes to this notice, we will amend the revision date at the top of this page, and such modified or amended Cookie Policy shall be effective as to you and your information as of that revision date. We encourage you to periodically review this Cookie Policy to be informed about how we are using cookies.

Cookie Name	Purpose	Duration	Domain source	Category
CookieConsent	Stores the user's cookie consent state for the current domain	13467 Days	Cookiebot.com	Functional
li_gc	Stores the user's cookie consent state for the current domain	180 Days	Linkedin.com	Marketing
